Result:

The aforementioned cartridge was tested according to the specific material requirements of the LFGB (German Food and Feed Act). The tests were performed based on the Commission Regulation (EU) No. 10/2011, the German Consumer Goods Regulation, Regulation (EC) No 1935/2004 and BfR Recommendation IX on Food Contact Materials, each in their applicable version at the time of testing. Regarding the parameters tested, the filter system complies with the requirements of the LFGB and is thus considered as suitable for the intended use in the foodstuff industry, where it may come into contact with drinking water.

Excerpts from this document may only be reproduced and used for advertising purposes with the express written approval of TÜV SÜD Industrie Service GmbH.

The test results refer exclusively to the units under test.

The basis for this certificate is our test report Aquaphor 08/15 dated 17/03/2015.

This statement is applicable as long as the foreseeable contact conditions have not been altered negatively in terms of the test conditions and the materials meet the qualities tested. The validity of this document expires in the event of changes to legal regulations, reformulation or changes in the manufacturing process or at the latest on 2019-03-17.
